

DNI

DNA of your Identity

DNI

DNA of your Identity

We live this life
Who am I?

Who are you?

Those early days

Stop!
WHO ARE YOU?
What do you want in my Forest!

I am Knight William
the bravest, the strongest,
the prettiest.
This is my Kingdom!

Well, prove it!

Who are you?

Hopla!

Aargh...
...Okay...I believe it....
You....can...come through

What is my world?

F A S T

- Floppy → Blockchain
- Einstein is relative. Quantum entanglement proves quantum pc
- Now IOT → I don't have to be alert. I get a popup.
- “Artificial intelligence” → decision makers obsolete

Today is a mess

- Commerce: “I know what you want”.
- Facebook: “I know who you are”
- Government: ”I decide who you are”

Because we own your data
we control you

I want

To be Happy
Be responsible
To be who

I AM

Prove it

I WANT:

- Green
- Sustainable
- Open source
- Know what I eat
- Feel a full member
- To be responsible
- Act out of love for life, not out of fear

Shifting the perspective

- YOU control you data for own own decisionmaking and feedforward
 - ◆ sharing with Your communities
- ◆
- COMPANY's need not storing You
 - ◆ You authorise them using your data
- ◆
- GOVERNMENT becomes GOVERNANCE
 - ◆ collective of individuals make policy

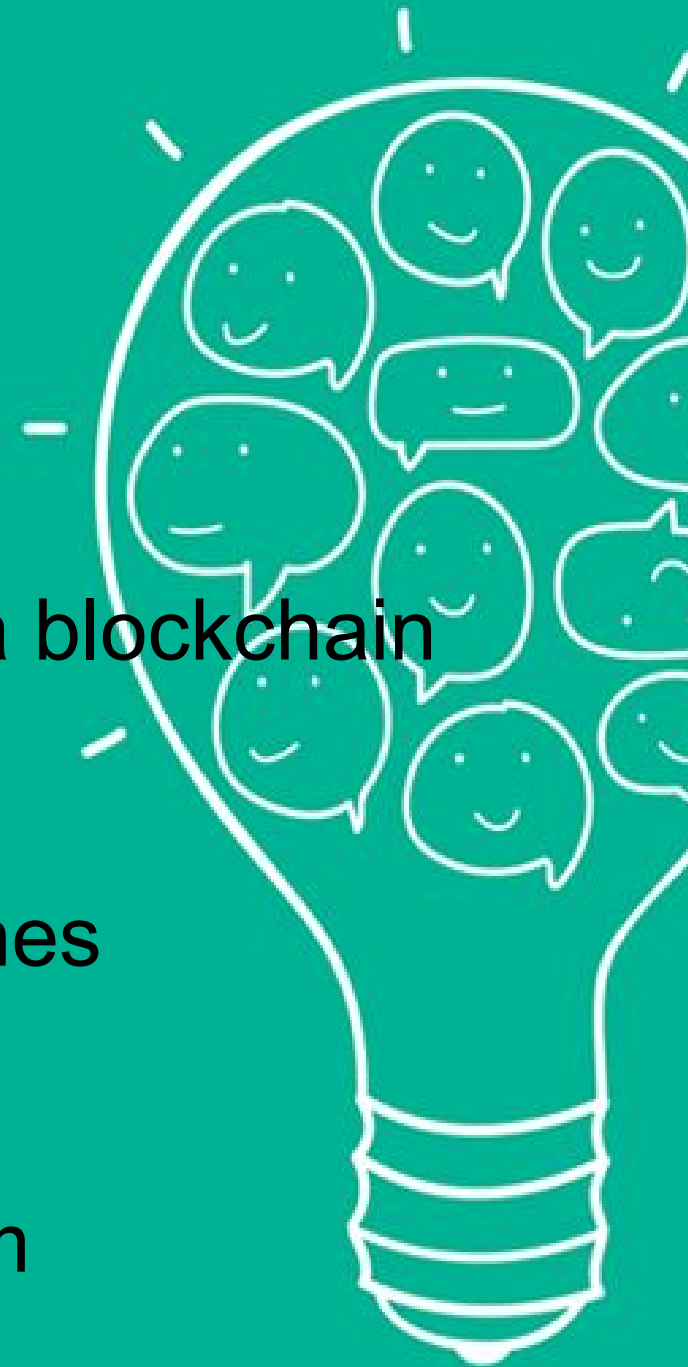

Solution

DNI

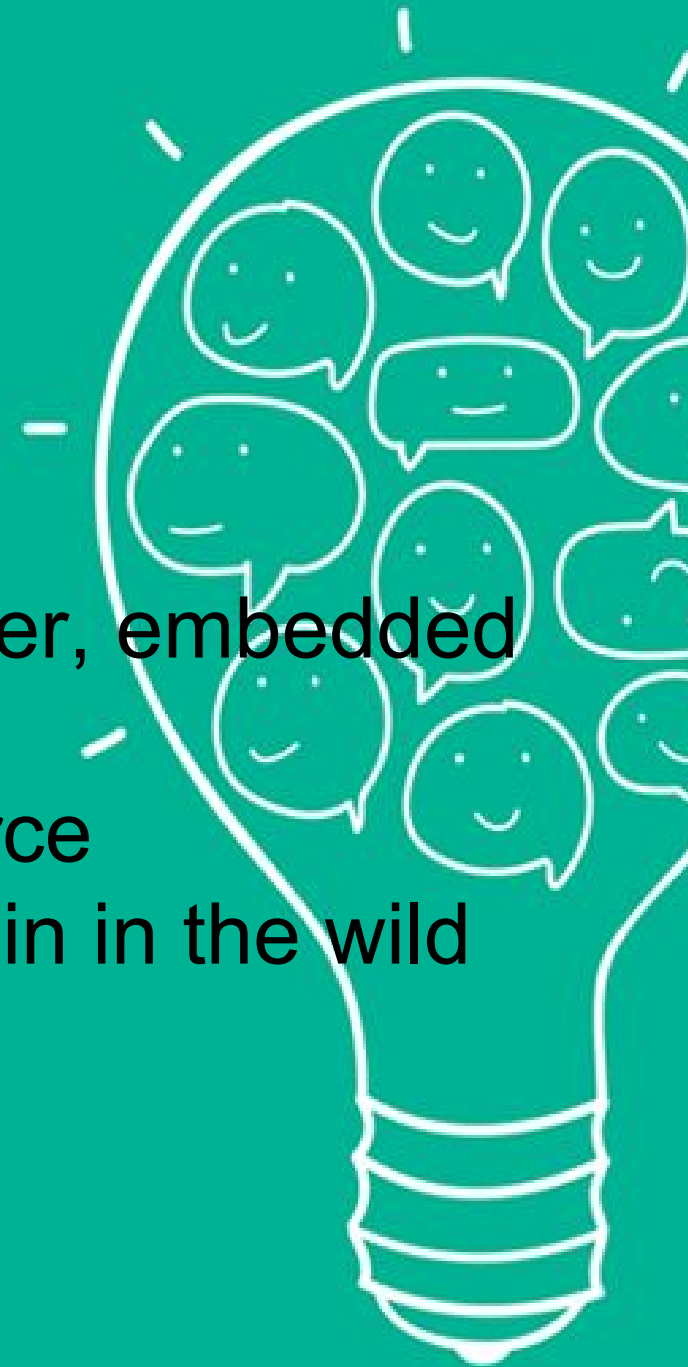

DNA of your Identity stored in a blockchain

- Unique
- Stores your ID and your milestones
- You own it so you control it
- Blockchain, encrypted
- We are the owners of this system

We made

- The DNI blockchain
- Condensed data
- A 3D Tattoo nano skin-chip-printer, embedded system.
- Platform of exchange, open source
- We are happy to release the chain in the wild today

We give you

- Your Personal digital ID
- Your personal data storage
- Your private dashboard
 - It belongs to you
- Together we own it and care for it

YOU

Enjoy wondering who you are
and what you will become
and

go for it!

Future cities

Some inspiration:

Will work in holons
Will be governed by all of us
Open data will be key
As well as to sense and respond
in time, and take action

More inspiration: <http://bit.ly/futurecitydni>
